

We offer our clients exceptional service from attorneys whose experience reflects the quality and depth of a large firm, with the service and agility of a boutique. The result is legal representation delivered by skilled lawyers in the most effective manner. From the outset of our relationship with each client, BAST AMRON works to develop real-time business solutions, formulate creative strategies, and provide effective counsel based on each client's needs and goals. Below is a small sample of what some of our clients have had to say about us.

"As an international company working in the United States, it was a good decision to retain Bast Amron. Their handling of our case was very productive and professional. Not only did they explain the legal process but they also provided timely and steady communication with us. Thank you, Alejandra, Brian, and the rest of the team"

~Vicente Peñalba, Finca Torremilanos

"Let me take this opportunity, to sincerely thank you Peter for your support. It was indeed a good feeling to have somebody over there in Miami who not only enjoys the sunshine but is a professional and definitely knows how to pursue such matters. For me, there is no doubt that your professional approach put our opponents into the defensive, they realized that it would become hard if not impossible to win this case which eventually led to their conclusion to rather end it now.

We are very happy about the outcome." **~E. Dubbers-Albrecht. I P S E N L O G I S T I C S G M B H**

"We retained Bast Amron to handle a commercial litigation matter and can't be more pleased with both the handling of our situation and the outcome. We felt first and foremost listened to. And during the process, we received timely communication that was clear and concise. Thank You, Jeff, Peter, and the rest of the team."

"The lawyers and support staff I have worked with at Bast Amron are smart and savvy, but what I appreciate above all is that I can always trust them to put my interests – the interests of the receivership estate – above their own, and to do what they say they will do on time and with no drama. They have proven to be among my most trusted advisors and I am happy to give them my highest recommendation."
